9, 10, & 11	Math Part 2	2	Wed. 5-3-23	10:30-11:25

Please carefully read the testing schedule to make sure that the student arrives for testing on the correct day according to grade level, subject, and time. It is important that the student is **dropped off 15 minutes prior** to promptly begin testing on time to take care of the administrative procedures including: confirming student testing, filling out answer sheets, passing out tests, preparing for testing, etc.

Practice materials are available for some testing levels upon request.

The student needs to eat a good breakfast at home prior to coming for testing. Testing is administered to all students with a time limit and students need to remain in room until everyone is finished or time expires. I encourage each student to bring additional reading material, snacks, and a water bottle.

Silver SPRUCE Academy will provide pencils, scratch paper, and a light healthy snack.

If you have any other questions please contact us, 970-500-5657. 6699 CR 521, Bayfield
